HINTS OF FILIBUSTER IN AIR OF CONGRESS

MUSCLE SHOALS, POSTAL PAY AND LAUSANNE TREATY

THESE WITH FARM RELIEF AND
OTHER MEASURES IN
TANGLE

REPUBLICAN LEADERS MAY
SEEK VARIOUS COM-
PROMISES

(By United Press)
Washington, Feb. 23.—Hints of a
filibuster were in the air when con-
gress set to work today to clear the
mass of legislation on its desk before
noon March 4.

Muscle Shoals, postal pay, the
Lausanne treaty, farm relief and
other important laws were mixed in
a tangle of doubt that caused repub-
lican leaders to seek for compromise.

Eight working days remain. Hund-
reds of bills remain to be passed.
Half of them at least must be shoved
into the scrap heap. Here's the situa-
tion as outlined to the United
Press by floor leaders of both houses:

Muscle Shoals
The independent group, led by
Senators Norris, Smith and McKellar,
believes it is justified in fully debat-
ing the pending point of order which
ruled the Underwood bill into the
discard. A preliminary poll indicates
that a close vote will decide the is-
sue—with the chances that the chair
will uphold the ruling which might
prevent action at this session. If it
is overruled and the bill is placed in
order a careful three or four days'
filibuster will kill it.

Farm Relief
The Capper-Haugen bill will come
up in both houses today, republican
leaders promise. There is strong op-
position to the measure but a major-
ity of both houses favors the bill and
Senator Capper, chairman of the
farm bloc, believes it will get
through if no dilatory tactics are
practiced by its opponents.

Lausanne Treaty
Senators King, Utah, and Swan-
son, Virginia, democrats, are work-
ing among senators on the floor in
an effort to delay a vote. A vote
will not be taken if Chairman Borah
of the foreign relations committee
carries out his announced intention
of forcing the treaty before the sen-
ate this week. President Coolidge,
however, is working republicans in
line for its adoption and it has a ma-
jority.

Postal Pay
Conferees "are hardly speaking to
each other," Chairman Moses of the
senate postoffice committee, says. The
bills passed by the senate and the
house are widely divided and so far
no spirit of compromise has been
seen. The conferees meet again to-
day.

Iale of Pines Treaty
Senator Copeland, democrat, New
York, declares the pact is dead for
this session. Any attempt to revive
it, he says, will be strongly opposed
by him. Hence it appears that this
treaty which already has been pend-
ing for 20 years, will go over an-
other year.

YOUNG WOOD GAMBLES HEAVILY

LEAVES BIARRITZ AND CROSSES FRANCO-SPANISH BORDER

(By United Press)
Paris, Feb. 23.—Osborne Wood,
son of Major General Wood, has
crossed the Franco-Spanish border
after heavy gambling at Biarritz, ac-
cording to reliable information here
today.

The young man, who disappeared
from his hotel a week ago, is said to
have made the trip into Spain by
automobile. His Chinese valet left
Woods' suite at the Crillon today.

Illinois Chief to Speak
Howard Savage, commander of the
Department of Illinois, has been en-
gaged to speak at the April con-
ference of Minnesota Legionnaires. The
parley will be held in Minneapolis
April 2 and 4.

Sullivan Stoically Sets About to Bury Their Dead

STORMS BATTER PACIFIC COAST, SPREADING PANIC

(By United Press)
San Francisco, Feb. 23.—The
storm which ripped along the cen-
tral and northern California coasts
Sunday spent itself by nightfall
after spreading panic through the
harbor here as it tore yachts from
their moorings and battered ship-
ping.

The gale at Point Reyes reached
a velocity of 70 miles an hour dur-
ing the day.

Several yachts were able to
make sheltered coves after fight-
ing the wind for hours.

POSED FOR YEAR AS DEAD INDIAN WORLD WAR VET

ARTHUR LOPEZ, MEXICAN YOUTH CONFESSES HIS DU- PLICITY

HAD PRESENTED VETERANS BU-
REAU WITH 50 AFFI-
DAVITS

(By United Press)
Minneapolis, Feb. 23.—Arthur
Lopez, the Mexican youth who posed
for more than a year as a dead In-
dian world war veteran, today
awaited action in Washington on his
case.

Telegrams were sent to the Veter-
ans' Bureau headquarters telling of
Lopez' confessed duplicity.

Lopez presented Veterans' Bureau
officials with more than 50 affidavits
to the effect that he was Arthur
Frazier, South Dakota Indian report-
ed to have been killed in the World
War.

Lopez had such success with his
story that officials were almost for-
ced to pay him because of public op-
inion.

M. J. Johannes, Veterans' Bureau
official in the Northwest, will make
a report and the secret service of the
United States department of justice
will probe Lopez' story. The boy
confessed his fraud. He may be
held on an attempt to defraud the
government of money.

Jeweler Tries Out Own Burglar Alarm and— Finds That It Works

St. Paul, Feb. 23.—Joseph Muirs,
proprietor of a jewelry store at 320
1st ave. n., Minneapolis, wasn't cer-
tain a recently-installed burglar
alarm was as efficient as its salesman
said it was.

Shortly before midnight last night,
having at the close of business set
the alarm for the rest of the night,
Mr. Muirs decided he would try it
out.

With a friend, he went to the store,
unlocked the door, and stroled in.

Two minutes later—about the time
he had forgotten all about the burg-
lar alarm—he felt the cold muzzle of
a revolver pressed against the back
of his neck. His friend experienced
the same sensation.

And then they noticed a stream of
blue-coated and plainclothes police-
men, revolvers in hand.

Mr. Muirs now is convinced the
burglar alarm works.

Posts Ask for Charters

Although the bulk of Minnesota's
500 Legion posts—515 to be exact—
were organized in 1919 and 1920, a
score or more were formed since then,
and half a dozen in the last six
months, the latest being issued to the
buddies at Bingham Lake in Cotton-
wood county. The boys at Lake Lil-
lian, Kandiyohi county, and Morton in
Renville county have just requested
charter application blanks. The char-
ter first issued a Legion post is called
a "temporary post charter," which at
the end of six months, if the new post
proves worthy, is replaced by a "per-
manent post charter."

HUNDREDS OF WOODEN SHIPS BUILT BY U. S. DURING WAR FORM \$50,000,000 JUNK PILE IN VIRGINIA

Above is a view of the plant of
the Western Marine and Salvage
Company at Alexandria, Va., where
hundreds of wooden vessels of the
emergency fleet are being destroyed
to salvage the metals and other
materials used in their construc-
tion. The value of the salvaged
materials will be only a small frac-
tion of the \$50,000,000 it cost to
build the ships.

DISEASE IN INTERNATIONAL RELATIONS, ETC.

OWEN D. YOUNG SAYS IT MUST
BE COMPLETELY
DESTROYED

DELIVERS AN ADDRESS AT JOHNS
HOPKINS UNIVER-
SITY

(By United Press)
Baltimore, Md., Feb. 23.—"Disease
in international relations must be
destroyed," Owen D. Young said to-
day in an address at commemoration
day exercises at Johns Hopkins Uni-
versity.

As president of the board of trustees
of the endowment fund to be
raised for establishment at Johns
Hopkins of the Walter Page school
of international relations, Young ad-
vocated in unstinted terms estab-
lishment of a great center to promote
world peace and avoid war through
scientific study.

It was Young's second address last
summer when he was a member of
the committee of experts which for-
mulated the Dawes-Young repara-
tions plan and later ad interim
agent-general of reparations.

GETS \$960,000 ESTATE IF HE FOLLOWS WILL

ENGLISH WORLD WAR CAPTAIN
MUST MARRY AND SETTLE
DOWN IN ENGLAND

MUST VISIT BURIAL PLACES OF
RELATIVES, MUST ENCOUR-
AGE FOX HUNT

(By United Press)
Saskatoon, Sask., Feb. 23.—Unique
conditions attend the inheritance of
\$960,000 in cash and property by Al-
fred T. Blake, English world war
captain who came here tired of the
monotony of life in Sussex.

He must, among other things,
marry and settle down in an English
estate before January 1, 1930, ac-
cording to the provision of the will
of his late uncle.

Blake also must visit the birth-
place of his mother in India, must
visit the spot in South Africa where
his father was killed during the
Boer War in 1901, must live in Can-
ada until November 20, 1927, and
then take possession of the English
manor. He must "encourage the
Sussex foxhunt to the best of his
ability and be a member of the
same."

Blake came here after the war and
started a fox farm near Wilkie.

BELIEVE MODERN LIFE DESTROYING HOMES IN ST. PAUL

(By United Press)
St. Paul, Feb. 23.—Half of St.
Paul believes modern life is de-
stroying the home, according to
Dr. Harry Noble Wilson, who
based his Sunday's sermon on the
answers to a questionnaire sent
out.

The unnatural modes of present
day life were blamed. Cliff-dwell-
ing apartment houses, sex-exciting
movies, drinking, gambling and
smoking, particularly by women,
came in for denunciation by 50
per cent of those answering his
queries.

The unsupervised automobile
luna, golf, feminine clubs and
politics were also blamed.

Lack of family devotions, par-
ticularly at the table, the evening
at home around the piano and the
old-fashioned husking-bee were
mourned.

2 KILLED AND 5 HURT AT RY. STATION BATTLE

CURTAIN OF MYSTERY OVER AF-
FAIR AT MARTINS JUNC-
TION, KY.

200 BULLETS FIRED IN THE
MELEE WHICH OC-
CURRED

(By United Press)
Martins Junction, Ky., Feb. 23.—
A curtain of mystery dropped sud-
denly today, obscuring completely
the causes of the railroad station
battle in which two men were killed
and five wounded here Sunday.

Typical of the rugged country, the
air of secrecy balked every effort of
authorities to penetrate behind the
mere physical facts of the shooting.

Lewis White was boarding a train
when John Hall, town marshal, ac-
cused him. Both drew pistols and
began firing. White fell dead. Soon
guns were spitting on every side.
Two hundred bullets were fired.

Tolt Hall, deputy sheriff, was
dropped by the first volley, one bul-
let over the heart and another
through his right eye.

Stephen and John Flennery, Dock
Thompson and Norman Collins fell
when their hands could no longer
hold their guns.

Marshall John Hall, least seriously
wounded of all, owes his life to a
bullet-proof vest. It was dented in
10 places but he only suffered a
scalp wound and two bullet holes in
his right arm.

Police believe the marshal may
have gone to the station to arrest
White as a moonshiner and that
friends of Lewis may have tried to
prevent his arrest.

LIMIT CONGRESS ON DECLARING WAR-RESOLUTION

NO WAR UNLESS DEFENSIVE, DE-
CLARED WITHOUT REFER-
ENDUM VOTE

RESOLUTION RECOMMENDED FOR
PASSAGE IN MINNESOTA
HOUSE

(By United Press)
St. Paul, Feb. 23.—The resolution
asking Congress to submit the pro-
posed constitutional amendment lim-
iting the power of Congress to declare
war was recommended for passage
in the House of the Minnesota legisla-
ture today.

The amendment would provide that
no war could be declared unless it
were defensive without a referendum
vote of the people.

The general legislation committee
of the house recommended the resolu-
tion for passage. A similar resolu-
tion is pending in the senate.

The house and senate joint motor
vehicles committee will hold a joint
session today to discuss the proposed
gasoline tax bill. The house com-
mittee has had the bill under discus-
sion but this will be the first joint meeting
held.

The senate civil administration com-
mittee today heard arguments on the
bill providing for reorganization of
the state government. Most of the
recommendations made by the house
committee considering the bill were
agreed to by the senate committee.

HUMANENESS OF WASHINGTON EXPATIATED ON

GOVERNOR CHRISTIANSON WAS
SPEAKER AT MUNICIPAL OB-
SERVATION OF BIRTHDAY

HISTORIANS STRIVE TO MAKE
WASHINGTON AN IDOL IN-
STEAD OF A MAN

St. Paul, Feb. 23.—Deploping the
picturization of George Washington
as a "wax dandy," and an aristoc-
ratic demagogue, Governor Theodore
Christianson at the municipal obser-
vation of the first president's birth-
day anniversary Sunday characteriz-
ed the "humaneness of Washington."

"We forget that George Washing-
ton was human—subject to the strife
and pain and trial of the race," he
said. "We forget that he was beset
with the same responsibilities and
duties that we have today."

"Historians have tried to make an
idol instead of a man of the father
of our country."

2 REPORTED KILLED AND SCORES INJURED IN RAILROAD WRECK

(By United Press)
Cincinnati, Feb. 23.—Two per-
sons were reported killed and
scores were reported injured when
a Louisville & Nashville train,
Florida-bound, left the rails today
at Brant's Bend, eight miles south
of here.

AIRCRAFT PROBE NOW SEEMS DEAD, IS DEDUCTION

ATTENTION TODAY FOCUSED ON
SECRETARY OF WAR
WEEKS

MAY REFUSE TO RECOMMEND
MITCHELL'S REAPPOINT-
MENT

(By United Press)
Washington, Feb. 23.—With the
House aircraft investigation dead, at-
tention today was focused on Sec-
retary of War Weeks, who said re-
cently he would act in the case of
Brigadier General Mitchell, prime
mover in the stormy probe, when the
committee's activities ended. Weeks
is expected to announce his refusal to
recommend the reappointment of
Mitchell as assistant chief of the air
service.

Meanwhile attempts are being
made to pump life back into the de-
funct investigation. Representative
Sol Bloom, New York Democrat, an-
nounced he would offer to pay all the
expenses of the committee if it would
resume and continue hearings until
March 4.

The official reason given for the
end of the inquiry was that the com-
mittee had only \$700 left of its \$25,-
000 appropriation and was forced to
choose between continuing hearings
or having no money to print and
make public its findings.

MIND TEST ON BOY OF 14 GIVEN ADULT

London, Feb. 23.—A list of ques-
tions designed to test the intelligence
of a 14-year-old boy will be placed
before Lord Rothermere, brother of the
late Lord Northcliffe, fabulously
wealthy owner of a chain of newspa-
pers.

Upon his ability to answer 75 per
cent of them correctly rests a \$5,000
wager.

Should Rothermere, who is 56, fail
he must turn over that sum to the
Labor party. Should he succeed, G.
W. Cove, a Labor member of parlia-
ment, will donate \$1,000 to newspa-
per charities.

The unique agreement developed
from an attack upon the English
school system in Rothermere's Daily
Mail. Twenty-six applicants for a
position for junior clerk with the
Rothermere publications were able to
answer correctly only 50 per cent of
a list of 25 questions drawn up by
the peer. One of the questions was:

"If a man has \$40,000 in 5 per
cent stock, what is his income after
deduction of a 22 per cent tax?"

Another which stumped the appli-
cants was:
"Name the capitals of European
countries?"

After the editorial attack upon a
system that did not teach the rudiments
of mathematics and geogra-
phy, Cove challenged Lord Rother-
mere to answer correctly 75 per cent
of the questions of a similar list.

Rothermere, who left school when
14, accepted the challenge.

The wager was made and Cove re-
tired to invent the questions with
this parting shot:

"To prove a millionaire cannot
pass a test for 14-year-old children, I
shall try to raise \$1,000."

The test is tentatively set for next
Saturday.

51 VICTIMS OF INDIANA MINE BLAST

INSPECTORS BELIEVE VICTIMS
HAD DUG INTO GAS FILLED
ENTRY

FOOD AND OTHER FORMS OF RE-
LIEF ADMINISTERED BY
RED CROSS

(By United Press)
Sullivan, Ind., Feb. 23.—Sullivan
today went stoically about the work
of burying its dead—the 51 victims
of Indiana's most disastrous mine
blast.

First of the funerals held yester-
day were those of Cecil Carthy and
his uncle, Dave Smith. Each family
has arranged to bury its dead when
and where it chooses.

State mine inspectors who went
through the mine early Sunday morn-
ing after the last body was hoisted
to the top, in an unofficial statement
said they believed miners had dug
through into an old entry filled with
gas.

Meanwhile food and other forms of
relief are being administered by state
and local officials of the Red Cross.

OFFICIAL PROBE OF MINE DISASTER

Indianapolis, Ind., Feb. 23.—Al-

announced today he will launch his
official probe of the Sullivan mine
disaster tomorrow.

OPEN PARK IN SOUTHERN UTAH

(By United Press)
Salt Lake City, Feb. 23.—The
scenic wonderland of Southern Utah,
which embraces Zion National Park,
Cedar Breaks and Bryce Canyon, will
be opened to general travel on May
15, with full motor and rail trans-
portation, national park lodges and
other arrangements for the care of
the public. Nearly two million dol-
lars have been expended by the Uni-
on Pacific in this development, in
addition to large sums appropriated
by state and federal government, the
National Parks and Forest services
to build and modernize connecting
highways.

Thirty-three miles of railroad line
have been built from the main line
junction at Lund to the gateway at
Cedar City, where a modern passen-
ger station, freight depot and other
traffic facilities have been installed.
At Cedar City the Hotel El Escalante
has been completed. Especially built
motor busses will be run on the loop
between Cedar City, Zion, Bryce and
Cedar Breaks.

SENATE COMMERCE COMMITTEE REPORTS

AUTHORIZES ELIMINATION OF
CLAUSE IN RIVERS AND
HARBORS BILL

Washington, Feb. 23.—The senate
commerce committee today author-
ized elimination of the clause in the
river and harbors bill which would
require municipalities to pay one-
fourth of the appropriation for de-
velopment of harbors in Michigan.
The committee also reported out an
appropriation of \$253,000 for devel-
opment of Flushing Bay.

State Needs Cash

Harrisburg, Pa., Feb. 23.—In ten

LIMIT CONGRESS ON DECLARING WAR-RESOLUTION

NO WAR UNLESS DEFENSIVE, DECLARED WITHOUT REFERENDUM VOTE

RESOLUTION RECOMMENDED FOR PASSAGE IN MINNESOTA HOUSE

(By United Press)
St. Paul, Feb. 23.—The resolution asking Congress to submit the proposed constitutional amendment limiting the power of Congress to declare war was recommended for passage in the House of the Minnesota legislature today.

The amendment would provide that no war could be declared unless it were defensive without a referendum vote of the people.

The general legislation committee of the house recommended the resolution for passage. A similar resolution is pending in the senate.

The house and senate joint motor vehicles committee will hold a joint session today to discuss the proposed gasoline tax bill. The house committee has had the bill under discussion but this will be the first joint meeting held.

The senate civil administration committee today heard arguments on the bill providing for reorganization of the state government. Most of the recommendations made by the house committee considering the bill were agreed to by the senate committee.

2 REPORTED KILLED AND SCORES INJURED IN RAILROAD WRECK

(By United Press)
Cincinnati, Feb. 23.—Two persons were reported killed and scores were reported injured when a Louisville & Nashville train, Florida-bound, left the rails today at Brant's Bend, eight miles south of here.

AIRCRAFT PROBE NOW SEEMS DEAD, IS DEDUCTION

ATTENTION TODAY FOCUSED ON SECRETARY OF WAR WEEKS

MAY REFUSE TO RECOMMEND MITCHELL'S REAPPOINTMENT

(By United Press)
Washington, Feb. 23.—With the House aircraft investigation dead, attention today was focused on Secretary of War Weeks, who said recently he would act in the case of Brigadier General Mitchell, prime mover in the stormy probe, when the committee's activities ended. Weeks is expected to announce his refusal to recommend the reappointment of Mitchell as assistant chief of the air service.

Meanwhile attempts are being made to pump life back into the defunct investigation. Representative Sol Bloom, New York democrat, announced he would offer to pay all the expenses of the committee if it would resume and continue hearings until March 4.

The official reason given for the end of the inquiry was that the committee had only \$700 left of its \$25,000 appropriation and was forced to choose between continuing hearings or having no money to print and make public its findings.

MIND TEST ON BOY OF 14 GIVEN ADULT

London, Feb. 23.—A list of questions designed to test the intelligence of a 14-year-old boy will be placed before Lord Rothmere, brother of the late Lord Northcliffe, fabulously wealthy owner of a chain of newspapers.

Upon his ability to answer 75 per cent of them correctly rests a \$5,000 wager.

Should Rothmere, who is 56, fail he must turn over that sum to the Labor party. Should he succeed, G. W. Cove, a Labor member of parliament, will donate \$1,000 to newspaper charities.

The unique agreement developed from an attack upon the English school system in Rothermere's Daily Mail. Twenty-six applicants for a position for junior clerk with the Rothermere publications were able to answer correctly only 50 per cent of a list of 25 questions drawn up by the peer. One of the questions was:

"If a man has \$40,000 in 5 per cent stock, what is his income after deduction of a 22 per cent tax?"

Another which stumped the applicants was:

"Name the capitals of European countries?"

After the editorial attack upon a system that did not teach the rudiments of mathematics and geography, Cove challenged Lord Rothmere to answer correctly 75 per cent of the questions of a similar list.

Rothermere, who left school when 14, accepted the challenge.

The wager was made and Cove retired to invent the questions with this parting shot:

"To prove a millionaire cannot pass a test for 14-year-old children, I shall try to raise \$1,000."

The test is tentatively set for next Saturday.

51 VICTIMS OF INDIANA MINE BLAST

INSPECTORS BELIEVE VICTIMS HAD DUG INTO GAS FILLED ENTRY

FOOD AND OTHER FORMS OF RELIEF ADMINISTERED BY RED CROSS

(By United Press)
Sullivan, Ind., Feb. 23.—Sullivan today went stoically about the work of burying its dead—the 51 victims of Indiana's most disastrous mine blast.

First of the funerals held yesterday were those of Cecil Carty and his uncle, Dave Smith. Each family has arranged to bury its dead when and where it chooses.

State mine inspectors who went through the mine early Sunday morning after the last body was hoisted to the top, in an unofficial statement said they believed miners had dug through into an old entry filled with gas.

Meanwhile food and other forms of relief are being administered by state and local officials of the Red Cross.

OPEN PARK IN SOUTHERN UTAH

(By United Press)
Salt Lake City, Feb. 23.—The scenic wonderland of Southern Utah, which embraces Zion National Park, Cedar Breaks and Bryce Canyon, will be opened to general travel on May 15, with full motor and rail transportation, national park lodges and other arrangements for the care of the public. Nearly two million dollars have been expended by the Union Pacific in this development, in addition to large sums appropriated by state and federal government, the National Parks and Forest services to build and modernize connecting highways.

Thirty-three miles of railroad line have been built from the main line junction at Lund to the gateway at Cedar City, where a modern passenger station, freight depot and other traffic facilities have been installed. At Cedar City the Hotel El Escalante has been completed. Especially built motor buses will be run on the loop between Cedar City, Zion, Bryce and Cedar Breaks.

SENATE COMMERCE COMMITTEE REPORTS

AUTHORIZES ELIMINATION OF CLAUSE IN RIVERS AND HARBORS BILL

Washington, Feb. 23.—The senate commerce committee today authorized elimination of the clause in the river and harbors bill which would require municipalities to pay one-fourth of the appropriation for development of harbors in Michigan. The committee also reported out an appropriation of \$253,000 for development of Flushing Bay.

MOONSHINERS

MAY HAVE KILLED KANSAS CITY MEN

POLICE SEARCH FOR SLAYERS OF PATROLMAN AND CHAUF-

FEUR

BODIES OF MEN FOUND HALF BURIED IN WHISKEY CACHE

(By United Press)

Kansas City, Feb. 23. — Police were engaged today in an exhaustive search for the men thought to have been moonshiners who killed D. J. Lovejoy, patrolman, and George Peters, former police chauffeur.

The bodies of the two men were found yesterday, the second day's search for them by local police. They were half buried in a former whiskey cache, covered over with rubbish which had been thrown in the cache and covered with gasoline and fired in the East Bottoms of the Missouri River.

The place where the bodies were found is a rendezvous for moonshiners, being a mass of brush and timber in an inaccessible swamp.

The bodies were scarred and bruised, indicating there had been a fight. An exploded shotgun shell was found nearby, but no bullet wounds were found in a preliminary examination.

In a tree near the cache was a lookout's seat and close by was the remains of a whiskey still.

The theory of local police and according to the testimony of Ed Jodts, teamster who hauled 335 gallons of whiskey from the cache in which the men were buried, for them, is that they were killed for stealing the liquor.

Lovejoy and Peters left home last Tuesday, Peters, who is an automobile salesman, supposedly to call on a customer at East Bottoms and Lovejoy to look for stills.

When the men failed to return the two women with whom they had been living, Ruth Phillips and Mrs. Martha Hassel, sought information at the local police station. Saturday 14 mounted police and a brigade of patrolmen searched through the bottoms for a clue. None was found, except the cache and several stills which were destroyed. It is believed here that Lovejoy and Peters had been stealing whiskey from the moonshiners in the district. Teamsters testified they had hauled large amounts of "corn" out of the bottoms for them. Several men and the two women who were living with the men were held for investigation.

Coca-Chewing Evil Habit

The chief vice of the Indians and half-breeds of Bolivia is chewing coca. A man who has the habit can always be detected by the immense lump in his cheek. The general effect of the drug is to dull the nerves and stiffen the resistance to fatigue. Under its influence natives can endure great hardships and physical strain. Many of them will work for days at a time on nothing except coca leaves, which they begin to chew at breakfast time and continue to chew throughout the day. As with all narcotics, the persistent use of coca wrecks the nervous system and dulls the intellect.—Youth's Companion.

How He Felt

There had been a shipwreck and the passengers were taken to various houses in the neighborhood to be made comfortable. They were received as guests of importance in one home and conversation was essayed. "There were no fatalities, I understand," said one, "but how did you feel when the waves dashed over you and you thought each moment might be your last?"

"Very wet, madam, very wet," was the reply.

Took It Literally

The two were discussing the careless way in which trunks and suitcases are handled by some railway companies.

"I had a very cute idea for preventing that once," said one of them, smiling reminiscently. "I labeled each of my bags, 'With care—China.'"

"And did that have any effect?" asked the other.

"Well, I don't know; you see, they shipped the whole darned lot off to Hongkong."

How He Felt

There had been a shipwreck and the passengers were taken to various houses in the neighborhood to be made comfortable. They were received as guests of importance in one home and conversation was essayed. "There were no fatalities, I understand," said one, "but how did you feel when the waves dashed over you and you thought each moment might be your last?"

"Very wet, madam, very wet," was the reply.

Took It Literally

The two were discussing the careless way in which trunks and suitcases are handled by some railway companies.

"I had a very cute idea for preventing that once," said one of them, smiling reminiscently. "I labeled each of my bags, 'With care—China.'"

"And did that have any effect?" asked the other.

"Well, I don't know; you see, they shipped the whole darned lot off to Hongkong."

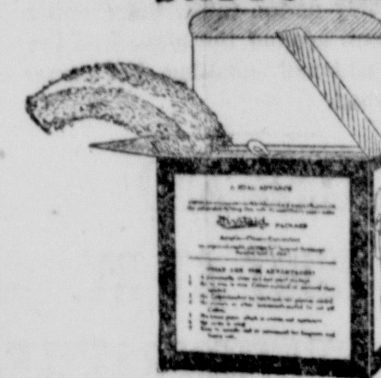

Compositions of Oil

Olive oil is practically 100 per cent fat and has energy value of about 4,000 calories per pound. The Association of Official Agricultural Chemists includes among edible vegetable oils and fats of sufficient importance to warrant standardizing the oils of cottonseed, peanut, sesame seed, poppy seed, coconut, rape seed, sunflower and maize. Of these peanut oil bears the closest resemblance to olive oil in its chemical and physical properties.

THREE MILL CITY MEN AS SPEAKERS

Dr. H. A. Morris, Howard Selover,
Col Mel Nyman to Address
Izaak Walton League

WILD LIFE PICTURE FILMS

Pictures and Speakers to do Double
Duty at Various Places
Wednesday

The committee in charge of the organization of the local chapter of the Izaak Walton League met on Saturday evening, and perfected plans for the reception of three representatives of the League who will be in Brainerd on Wednesday for several meetings to which the public is invited.

Dr. H. A. Morris, Howard Selover and Col. Mel Nyman, all of Minneapolis, will be in the city on Wednesday afternoon, prepared to speak on the purposes and activities of the League and bringing with them four reels of motion picture films, to be shown in the local theatres. All three of these men are ardent sportsmen, and prominent throughout the state. Messrs Selover and Nyman are directors of the Minnesota division of the League and all are very active in the organization. They will bring a message that will be of interest to all.

At four o'clock Wednesday afternoon the four reels of pictures will be shown at the New Park theatre in a free matinee to all school children. These pictures are of outdoor wild life, especially that found in Minnesota, and the school children are urged to see them at the New Park. They are shown absolutely without charge.

At six o'clock the three visitors will be guests of the Brainerd Lions club, at the weekly luncheon of this organization, held at the Ransford hotel. They will speak on the preservation of wild game at this time.

In the evening arrangements have been made for Messrs Morris, Selover and Nyman to attend the regular meeting of the Chamber of Commerce, and speak on the Izaak Walton League. It is hoped that a full attendance will be present for this meeting, not only members of the Chamber, but all who are interested in the purposes for which the League was organized. Everyone will be welcome.

At ten o'clock this meeting at the Chamber of Commerce will adjourn to the Lyceum theatre, where the four reels of pictures will be shown. Tickets will be given out at the Chamber to all in attendance there, so that they may see the pictures without charge. Those attending the second show at the Lyceum will be invited to remain to see the outdoor life pictures.

All sportsmen and others interested in the preservation and restoration of wild game in this section of the state, are urged to be at the combined meeting of the Chamber of Commerce and the Izaak Walton League, and to view the pictures at the Lyceum theatre afterward.

The League now has over 50 charter members, and the list is growing daily. The charter list will be closed on March 1st, and the organization officially started. All who desire to become charter members are urged to make application before that time.

The Izaak Walton League of America is a national organization of fishermen and hunters and outdoor lovers, dedicated to the restoration of sports afield and astream in the United States and Canada, and to the restoration, as far as can be, of the outdoor America of our ancestors. It is a national organization, having no commercial or personal gain, or aggrandizement under it; neither has it political nor religious interests.

Each member of the League takes the following pledge: "We pledge ourselves to do our best to restore for posterity the outdoor America of our ancestors."

The League does not attempt to do the work of any other sportsmen's organization or to work counter to them. On the other hand such organizations will be given every assistance possible from the League.

BOND REFUNDING TO YIELD BIG BENEFIT

PROPOSAL HELD TO REMOVE COUNTY LIABILITY AND AVERT GOOD ROADS DELAYS

Crow Wing county with \$398,890.46 of reimbursement bonds for trunk highways outstanding is directly affected by proposals pending in the legislature that the state refund such issues and entirely relieve the counties of individual liability for the obligations. This plan is being approved by many of the bitterest opponents of the \$20,000,000 highway bond recommendation, it is said, and may prove the economical and generally satisfactory solution of the problem which threatened to tie up Minnesota's popular good roads program for the next two years.

Senator Rosenmeier and Representatives Scallon and Long from this district are listed among possible supporters of the refunding plan. Incidentally, capitol reports are that those uninformed or unfriendly to the highway program never lose an opportunity to express opposition to almost any and all proposals to enable the state to go on with good roads work, while the larger number favoring reasonable improvements are less active in writing to their legislators.

The refunding plan affects every county in the state except Koochiching, Lake of the Woods and Roseau, according to reports from St. Paul. Further, it is held to mean earlier road improvements without additional cost in every county, while without it little and possibly no betterments can be made for two years.

The proposal is as simple as conditions which brought it about. Acting under legislative authority, the counties issued the reimbursement bonds and in many instances even before the good roads amendment was passed. More than \$23,000,000 of bonds issued from 1919 to 1922, inclusive, were straight 10-year bonds, each county acting independently of others and paying no attention to the possibilities of overloading maturities. To build a sinking fund and pay off the \$23,000,000 during the years 1929 to 1932 will take the big part of automobile tax receipts in the meantime and leave little more

than enough to pay the routine maintenance expense, as highway income is provided now.

The state refunding plan is to authorize a state board to convert the straight term bonds into serials maturing over a longer term, at the same time reducing the wartime interest rates on most issues. This plan will release \$2,000,000 annually which otherwise must be put into the sinking fund and will leave little or nothing for any but routine maintenance purposes from the motor vehicle tax income as now fixed. The "re-financing" will not increase the state indebtedness but will relieve the existing stringency in the highway fund and put it on a better basis, according to its sponsor.

"If a farmer with short-time, high interest notes outstanding, needs his ready cash to get bigger returns from his farm, he will jump at a chance to "re-finance" by giving new notes maturing when he can more conveniently meet them and drawing smaller interest, and that is exactly the proposal offered the state now under this refunding plan as I see it," said a prominent member of the state senate.

Snow falls in southeastern Australia during the winter months, and occasionally lies on the ground as far north as Melbourne and Sydney. On the mountains and in northeastern Victoria and southern New South Wales, the snowfall is very heavy. Forests are practically buried in snow and on the plateaus of northeastern Victoria the ground is sometimes covered to the depth of several feet from May to September. This also occurs on the highlands of Tasmania, although there are no mountains bearing perpetual snow-caps in either Australia or Tasmania.

The oldest seagoing vessels of the world are the junks of the Yellow sea of China. These junks are "highly decorated vessels, with tall poops and rounded sides, reminiscent of the days of Drake and Columbus."

"Junks of this type are in existence still which were built in the time of Kien Lung, say some 150 years ago," says the London Yachting Monthly.

"A junk will not heave to, and John Chinaman is fully aware of this. He doesn't even try; his plan is far simpler. He lets his halyards go with a run, and the sail is off his vessel in a moment. The high poop acts as a riding mizzen and brings him head to wind; the low bow prevents him from falling off the wind.

"If the blow is likely to last any time, he lays out a sea anchor. His next procedure is to burn a joss stick and probably a few pieces of paper to his household god. After that, as there is nothing more to do except eat or sleep—he does so."

SCHOOLS TO HEAR INAUGURAL ADDRESS

For the first time in history the inauguration of a President will be broadcast by radio, when on the morning of March 4th all America will tune in.

The Gold Medal Station, WCCO, is included in a list of twelve outstanding radio stations over the country which will broadcast the ceremony and inaugural address of President Coolidge. The hour is set for 10:20 a. m., Central Standard Time, and it is expected that the program will last approximately two hours. Preceding the start of the ceremonies, the Gold Medal Station will broadcast patriotic organ music from the State Theater, Minneapolis.

Every school child in the Twin Cities, 170,000 of them, will hear the ceremonies right in school, as both public and parochial school authorities in St. Paul and Minneapolis have agreed to suspend classes during the ceremonies. The Northwest Radio Trade association has agreed through its members to provide, install and supervise the operation of receiving sets in every school in the Twin Cities, over 200 in all.

With the announcement made through the press that WCCO would participate in the broadcast, a flood of letters from all over the Northwest started pouring into the Gold Medal Station, asking for complete details. Among them are a number from public school authorities who see in this event an opportunity to instill in the heart of young America the significance of a Presidential inauguration.

It is expected that public gatherings will be held all over the Northwest during the ceremonies, where people by means of radio receiving sets may hear the solemn ceremony of inducting President Coolidge into the highest office within the gift of the American people.

In homes, stores, factories, churches, school houses, theaters and other public places all over the Northwest will be gathered the largest audience that has ever listened to the radio.

The problem of carrying the ceremonies by direct telephone wires to WCCO requires engineering skill of the highest type and the arrangement of special facilities all along the 1,500 miles that the sounds must travel over the wire to the new 5,000 Watt sending station of WCCO, the completion of which has been rushed to insure to the Northwest an equal opportunity with the East to participate in this great event. It is expected that with the increased power of the new station, which swings into action on that day, that all portions of the Northwest will receive the program clearly.

Brainerd has no Radio Trade association to assist in rental of radio sets and installation of aerials. So far as known we have some seven or eight dealers in radio equipment. If they operate in conjunction with the Chamber of Commerce, Rotary and Lions clubs, the schools and the balance of our civic societies, arrangements may be completed so that all schools, public and parochial, may hear the inaugural address.

It is hoped the civic pride of Brainerd can be so stirred that youthful America, studying its civic lessons, may hear the executive of this great nation, President Coolidge, give his inaugural address.

The president's address will have the right-of-way, all great stations cooperating in relaying. WCCO station will put into use its new high power equipment, thus undoubtedly assuring better reception in Brainerd than previously.

The writer was in the Minneapolis Elks club Saturday evening when Lieutenant Governor Nolan was asked if the legislature contemplated hearing the inaugural address by radio. No steps have been taken, but it may be possible that the legislature, if connected by radio, may adjourn its proceedings and "listen in" to the address.

With the arrangements already made for radio reception of the address, President Coolidge will speak to the largest audience ever assembled at any time in history by any nation of the world.

COMMUNITY SERVICE

GEORGE WASHINGTON gave the greatest example of community service. He served his first years in the presidency practically without pay. Congress, of course, gave him a salary (on paper), but the young republic was too impoverished to pay him much, if anything at all.

Every commission entrusted to him was faithfully executed. And in Washington's era the people certainly gave him enough to do, in fact they early recognized the fact that when George did it, it was done well and satisfactorily.

We still maintain that it will be a "big day" in baseball circles when Joe Bush of the St. Louis Browns takes the box and pitches against the Yankees, his erstwhile teammates. Some say the Yankees will find their most difficult team to defeat in the Senators. We say, "Look out for the St. Louis Browns." If Bush gets busy and has the right support, he can put the Browns in front rank and make them real pennant contenders.

SPRING is just around the corner. Concomitants are the lessening contents of the coal bin, reports of early robins and pussy willows, a revived concentration on fixing up the old car or buying a new one, studying of interior home decoration literature, examination of fishing tackle, renewed interest in the lake cottage, etc.

BROADWAY, New York, seems to house some suggestive plays and a clean-up seems inevitable. Commercialized smut should not be tolerated. The test for any play should be: "Is it a good one for all the family to see?"

OLD time sailors and prospectors were just as foolish spending their "stakes" or wages as the lumberjacks. Fiery liquor made its appeal and having a "good time" always wound up with finances depleted.

We never knew any one was so interested in golf as to commercialize it and bet \$10,000 on a game. Next thing you know, the grand old sport of golf will be edging boxing when it comes to big purses.

JUST now the aircraft investigation seems to be up in the air.

Too Many Have Wrong Theory of Happiness

Happiness was not the direct object of a stoic's life. There is no rule of life contained in the precept that a man should pursue his own happiness. Many men think that they are seeking happiness when they are only seeking the gratification of some particular passion, the strongest that they have, was the contention of Marcus Aurelius. The end of a man is, as already explained, to live conformably to nature, and he will thus obtain happiness, tranquillity of mind and contentment. As a means of living conformably to nature he must study the four chief virtues, each of which has its proper sphere: wisdom, or the knowledge of good and evil; justice, or the giving to every man his due; fortitude, or the enduring of labor and pain, and temperance, which is moderation in all things. By thus living conformably to nature the stoic obtained all that he wished or expected. His reward was in his virtuous life, and he was satisfied with that. Some Greek poet long ago wrote:

For virtue only of all human things
Takes her reward not from the rewards
Of others.
Virtue herself rewards the toils of
virtue.

Musician Makes Plea for Melodic Glossary

Reverting to the elementary aspect of the question, I believe that if one were to collect as many as possible of the melodies which have given the greatest happiness to the greatest numbers, it would be feasible to compile from them a glossary of melodic terms such as would insure a melodic result with the same audience under almost any conditions, writes Ewin Evans in the *Margin of Music*. Then one might take the melodies which have given as much happiness to a more restricted circle, and add a list of terms the use of which was to be recommended only when the presence of that audience could be counted upon.

The composer who travels beyond these accepted glossaries will always be pronounced unmelodious until the new rural habits have taken root. So far as the best "advanced" music is concerned, it is melodious to those who know it intimately, and whose ear is capable of acquiring new habits, and it is unmelodious to those who either do not know it or do not want their habits disturbed.

Aborigines' Tobacco

Australian bushmen show great discrimination in their smoking and are adept at "curing" wild tobacco. The leaves of this plant resemble those of tobacco plants, but are smaller. The leaf gives off a nicotine oil, is pleasant to the taste, and burns well. After the leaf is gathered it is allowed to wilt but not dry. In the fermentation process damp sacks are thrown over the leaves in a warm and shady place for about a week. Then follows the drying in some airy place until the leaf shows a leathery texture. The midribs and stalks are now removed and the leaf is arranged in layers and sprinkled with heated treacle, rum, and, if possible, a little saltpeper. The whole is then packed in a box and pressed until the curing is complete.

Gave Up Reform Idea

St. Michael is honored by various orders of chivalry, among them one founded by Louis XI. of France, which bore the name of the Order of the Cockle. It derived its name from the cockle shells which ornamented the robes of the knight. A partly religious institution connected with the saint was the Society of Fools, founded at Cleves in 1381. Its amiable object was to prevent the rising generation from adopting bad habits. Knights of the order wore on their mantles an emblem of a fool, his cap and bells. The title of the society suggests that members well realized that to attempt reforming boys and girls was a fool's errand.

Other Side of the Ledger

Jones was sent by his employer, a bookmaker, to collect a betting debt from Smith, who was notorious for his slackness in settling accounts.

After listening to several excuses Jones remarked, "Well, at least let me know on what date I may expect payment."

Smith replied: "Do you take me for a prophet?"
"No," responded Jones, "Up to the present I have always regarded you as a loss!"

Where Days Are Short

North cape, at the extreme north of Norway, is within the Arctic circle, and at that point the sun does not rise for two months in midwinter—that is to say, there is continuous night from November 20 to January 23. On these two days the sun barely shows its upper edge above the horizon. Sunset almost immediately follows sunrise, and these therefore are the shortest days at North cape.

FAMOUS FORTS IN U. S. HISTORY

By ELMO SCOTT WATSON

Its Builders Received 18 Cents a Day

On August 18, 1846, Gen. Stephen W. Kearney's "Army of the West," marching to take part in the Mexican war, arrived in the "drowsy old town" of Santa Fe and took possession. Immediately afterwards cannon were placed on an eminence overlooking the town and these guns roared forth a salute to the Stars and Stripes.

A month afterwards Kearney wrote to Brigadier General Jones, adjutant general of the army, as follows: "As this is the capital of the territory a new fort is being built under the direction of Lieutenant Glimmer of the engineers and is called, subject to your approval, Fort Marcy." Evidently the adjutant general approved of this method of honoring William Learned Marcy, secretary of war at that time, and so Fort Marcy its name remained as long as it existed.

Perhaps no other fort in the United States was ever built by the government at such a small cost. The work on the fortification was done by the volunteer troops in Kearney's army, a certain number of whom were detailed to this duty each day. Every man who worked 10 days or more consecutively got the magnificent sum of 18 cents a day extra on his pay.

The fort was further improved by Col. Edwin V. Sumner of the Second dragoons, who took command of the military department of New Mexico in July, 1851, and some of the regiments who garrisoned it later saw some stirring service during the Civil war.

Fort Marcy was not the first fort erected on this hill in Santa Fe. Away back in the beginning of the Seventeenth century, before the Pilgrims landed on Plymouth Rock, the Spanish explorers who pushed north from Mexico found on this site evidence of a Pueblo ruin which had been abandoned many years before but which evidently had once been used by these peaceful people as a defense against the wild tribes which sent raiding parties against them.

Although St. Augustine, Fla., and the predecessors of Fort Marion seem to have the best claim to the distinction of being the first town and first fort built on the North American continent by the whites, Santa Fe and the progenitors of Fort Marcy can claim a generous share in the honor of being relics of the rule of Spain in the New World.

ARMAMENTS LIMITED TO A SAFETY STANDARD

STATE GOVERN-
MENT

ADDRESS WOMEN'S CONFERENCE
ON NATIONAL DE-
FENSE

(By United Press)
Washington, Feb. 23.—A general understanding among nations that armaments shall be limited "to the reasonable requirements of safety," is the honest hope of the United States government, President Coolidge said in an address to the Women's Conference on National Defense as peace insurance here today.

To further such an understanding, the United States should endeavor to set an example for the world, "of moderation in armaments and invite others to pursue a similar program," the president said.

"It is not easy to formulate the details of a program which would stand before the world as I would suggest," the president continued, "yet I believe this could be done to assure other nations that this is our aim and desire, and whenever a particular nation shall become convinced it is our aim to enforce a program of moderation without aggression, it will be an example for other nations to adopt a similar attitude."

"There is, I believe," the president added, "so general an agreement with these suggestions that further accomplishments in the direction of arms reduction should be possible."

The president said he did not believe he would set a good example by abolishing the army and navy and defended the maintenance of a force adequate to defend the nation.

"We are compelled to recognize that national safety requires such a measure of preparedness as shall be the guarantee against aggression without committing the nation to militarism," he said.

"Even the most law-abiding communities do not dismiss their police forces. No more can any nation allow its life to be menaced by disorder."

Mr. Coolidge said, "About in proportion as nations shall make progress in creating an effective tribunal for the peaceful settlement of international differences they will find themselves able to lessen their military establishments."

After praising the principles of the women's conference, which is to further preparedness and lauding the spirit of the women throughout all time, the president devoted himself to his main subject.

UNITED STATES SELLS PASSPORTS AT PROFIT

(By United Press)
Washington, Feb. 23.—The United States government probably will accept the invitation to the League of Nations' proposed International Conference to Simplify Passport Regulations, but is expected to block abolition of passports, officials here say.

Three reasons place this country in a different class from European nations and make it less willing to cut the red tape which maddens travelers, officials explained. These are:

1. American visa and passport fees bring in over \$4,000,000 a year to the government, with an approximate net profit of \$2,000,000. Visa fees alone pay the entire expense of the consular service.

2. The American restrictive immigration law necessitates elaborate precautions for immigrant applicants and extensive evidence that prospective visitors are not immigrants in disguise.

3. America's large alien population makes it desirable, according to officials, to prevent alleged "political undesirables" or "agitators" from visiting the country.

This government may, however, agree at the conference to reduce or cut in half the \$10 fee which it charges for each visum. Pressure is being exerted on Washington officials by American business men and tourists who object to paying \$10 a visa for a half dozen foreign countries they visit in a short European trip. Various governments, whose citizens object to the high price of United States visas have retaliated by boosting the prices of their visas for Americans. And there is a general desire now to break the vicious circle, it is said.

Many of the European governments would go further and dispense with passports altogether. Several of them have already made reciprocal arrangements whereby their respective nationals need no passports or visas to enter the affected countries. The Washington administration still feels, however, the need of control.

Although the question is shrouded in legal technicalities, there are American officials who say that if this government really desired to join other nations in abolishing passports, it could do so without seriously injuring the necessary immigration machinery.

Although the foreign applicant must have a passport from his government now to make an immigrant's application, he is not required to present the passport at Ellis Island. There is no reason, these officials say, why United States consuls abroad should not give the immigration certificate, which is at present sufficient, without the prior showing of a passport.

As several of the financially troubled countries of Eastern Europe are also finding the visa business, at \$10 a visa for American tourists, a profitable enterprise, they are expected to join with the United States at the proposed international conference in blocking general change.

More than one-half of the \$4,000,000 annual income from visas is net profit. Less than \$2,000,000 is added to the consular expense as a result of the visa machinery established since 1919. The number of visas granted, however, is falling off; the number was 601,000 in 1920 and 405,000 in 1924. But the sum is still sufficiently large, and apt to remain so for some time, that the administration with its economy program will not be in a hurry to cut off that source of income, it is said.

Congress recently was given a chance to make itself heard on the question when Representative La Guardia, Independent, N. Y., introduced a bill to abolish visa fees. No action has yet been taken on it.

Missed Accustomed Noise

Along the Irish coast are lighthouses which fire a signal gun at three-minute intervals during foggy weather. To a visitor the noise is irritating and unbearable, making sleep an impossibility; but to the seasoned lighthouse-keeper not only does the monotonous boom pass unnoticed, but a break in its regularity reacts as a disturbance.

An old Irishman of long service slept soundly and peacefully during a winter night while his wife fired the roaring three-minute signals—that is, he rested comfortably until by some shortcoming one of the charges failed to explode.

Instantly he awoke, sat up, gazed wildly around, and shouted, "Maggie! What the deuce was that?"

ENGLAND STIRRED BY THE ILLNESS OF KING GEORGE

PHYSICIANS ADVISE HE TAKE A
REST IN SOUTHERN
EUROPE

BRONCHIAL INFLUENZA HAS SE-
VERELY TAXED THE
MONARCH

(By United Press)
London, Feb. 23.—All England is tremendously stirred by the news that King George has been advised by his physicians to take a rest in southern Europe during convalescence from an attack of bronchial influenza from which he has been suffering for several days.

Thronged stood reverently in front of Buckingham palace today and waited for the official bulletin on his majesty's condition.

No bulletin had been issued up to 11 a. m., however, the king's doctors declaring it unnecessary because of his physical condition. The United Press was informed by a reliable source that King George passed a comfortable night and is much improved.

No date has been set for the king's departure, the United Press was informed at Buckingham palace this afternoon. It is expected the royal yacht "Victoria and Albert" will be sent to the Mediterranean at once to await the King's arrival in the south of France overland.

Physicians decided that only an official bulletin will be issued daily, in the evening, pending his majesty's departure.

The king has left England only a few times since his accession to the throne, and then only on state business. He has not had a real vacation since his coronation.

Evidence of public trepidation relative to his majesty's condition was made plain Sunday when hundreds routed their afternoon strolls past Buckingham palace, hesitating in front of the huge iron gates to gaze up at the apartment where the king lies ill.

Newspapers are handling the story with traditional reserve. They are publishing merely the official bulletins as issued from the palace. These are accompanied by only the briefest editorial comments.

Conversations overheard on the sidewalk in front of the palace plainly indicate the deep respect the people have for their king. It was remarked, among other things, that King George has worked harder and had fewer vacations than the average business man.

Despite the example set by other monarchs, it was recalled his majesty has refrained from fleeing England's trying winters. When a voyage such as now is to occur was suggested some time ago the king said, "My place is at home."

Because she is a "bad sailor," it is believed the queen will not accompany the king on his yacht. It is said unofficially that she will go overland and spend some time at the Duke of Connaught's villa on the Riviera.

The Times says today no consideration of public business should be permitted to interfere with the necessary measures for the complete recovery of the king's health. The whole nation insists that the king's first public duty is thorough restoration of his majesty's physical fitness, according to The Times.

Tenor's Singing Saved

Two From Awful Death

The late Joseph Maas, the famous tenor, during a visit to the United States some years ago, was very fond of hunting the buffalo on the prairies.

When engaged in this sport on one occasion with his friend, Boucault, the celebrated Irish actor, they were suddenly attacked by a number of Indians in the dusk of the evening, while far from their encampment. Bound hand and foot, the captives were dragged to the Indians' halting place, where a fire was made. While awaiting their fate, fearing that that night would be their last, Boucault said to his friend: "Joe, sing for me." Maas, who had never sung in such terrible circumstances, tearfully complied with his friend's request, and began to sing some old favorites, recalls the Family Herald. The Indians pricked up their ears and leaned forward to listen as the great tenor's voice thrilled through the night air.

When he stopped they pricked him with their spears, saying, "More, more," and he was compelled to continue. Song after song he sang, until at length he noticed that one by one the Indians were dropping off to sleep round the fire. When the last man had dropped off to sleep Maas crawled to a knife lying on the ground and managed to cut Boucault's bonds, and his friend then quickly released him.

Landmark Burnt for New Gibson Thrill Picture

Even boards and plaster must at some time pay their farewell tribute to art. Especially when the art is for the screen and a fire scene is needed with realistic details at stake.

After three years of gracing one of the green canyons of Universal City, the famous Italian villa, built during the summer of 1920 for "Foolish Wives," was burned to the ground for a big scene in "Hook and Ladder." Hoot Gibson's latest starring feature, showing at the Lyceum Theatre tonight and Tuesday for the local firemen's benefit.

The villa, one of the largest individual building sets ever constructed for a motion picture, because of its classic beauty, became famous as a landmark on the Universal lot.

Its burning furnishes one of the most spectacular night scenes filmed at Universal City in many a month. For sheer thrilling spectacle it even rivaled some of the night shots of the mammoth sets of "The Hunchback of Notre Dame."

"Hook and Ladder" is an original story by Edward Sedgwick, which furnishes many thrills, and lots of good comedy.

Laughs, thrills, an occasional sob and more laughs are the ingredients that make "In Hollywood with Potash and Perlmutter," showing at the New Park on Wednesday, Thursday and Friday, one of the most enter-

In this second screen venture of the famous partners, Abe and Mawruss go into the motion picture business, and it is the complications that result from their attempts to produce a picture starring a vampire that

produces the hilariously funny comedy situations. Of course the wives of the partners do not approve of the vamp idea, nor is the situation simplified when the bank refuses to extend more credit at a critical moment.

Legion Essay Contest

As has been the case in preceding years the American Legion will stage a national essay contest in 1925, it is announced by national headquarters at Indianapolis. Fifteen hundred dollars are to be awarded the three winners, there being a first prize of \$750, second \$500, and third \$250.

In this year's essays the competitors will answer the question "Why has the American Legion, an organization of veterans of the World War, dedicated itself first of all, to uphold and defend the Constitution of the United States of America?"

Prizes will be awarded in each state, a silver medal going to the winner of first place, a bronze medal to the second prize winner, and a certificate of merit from national headquarters going to the winner of third prize.

All girls and boys between the ages of 12 and 18, inclusive, are eligible to enter the contest. Only one essay may be submitted by a contestant, and the essays shall not be more than 500 words in length. Only one side of the paper is to be used, the rules provide, and a margin of one inch must be allowed on either edge. After the essay is completed the manuscript should be neatly folded, not rolled. Spelling, penmanship and neatness will be considered in judging the winner, and age will be a factor.

St. Paul, Feb. 23.—Abraham Karatz, Minneapolis attorney, was disbarred from Minnesota courts for a period of six months today. Called before the supreme court to answer to a charge of giving a worthless check, Karatz pleaded that he was not acting as an attorney when he gave the check. Chief Justice Samuel B. Willson reprimanded him, advising him that he was an attorney all the time and had certain professional standards to live up to.

Every competitor will be required to sign a pledge on the back of his or her essay, stating that it was written by the contestant.

State Auxiliaries Lead

Minnesota Legionnaires were cheery because they were among the three leading states—Illinois, Minnesota, Pennsylvania—in the Legion membership race; but now the Minnesota Legion Auxiliary had gone one better, and is leading the nation in the Auxiliary membership contest, being 1,000 members ahead of Kansas, the nearest rival. Mrs. M. L. Spencer of Winona, Minnesota president, urges all units to "keep up the good work," and predicts that the Gopher state will cop some prizes at the national convention in Omaha, where departments with fine records in various lines of Legion endeavor, will be rewarded with trophies.

AUTO STEALING GANG IN CITY

Police Say an Organized Campaign Effective in City Past Month

THIEVING INCIDENTS CITED

Practice of "Borrowing" Cars Incurs a Severe Penalty

According to local police officers there has been an automobile stealing campaign in Brainerd during the past month, which is gaining in proportions and which culminated in the taking of three cars over the last week end.

C. F. Christenson of Pine River, reported that his Ford coupe was taken between eight and ten o'clock on Sunday evening in front of one of the local theatres. He reported the matter to the police at once, but the car was not found until Monday morning, at the corner of South Fourth and Front streets, where it had been abandoned near the Nash-Finch wholesale grocery house. The owner, who had returned to Pine River, was notified, and came to Brainerd to claim his property.

A new Overland Coupe was also taken on Sunday evening, from the curb in front of the home of J. A. Jones, 723 North Sixth street. The parties who took the car were unable to start it, after they had pushed it a block, and abandoned it. The police were in the act of towing it to a garage when the owner came to claim it. An Overland coupe was reported stolen from Crosby, and the police thought they had found this car when they picked up the Brainerd coupe. The motometer on the latter was stolen before it was abandoned.

A Ford coupe, belonging to a party from Northeast Brainerd was taken on Saturday evening from where it was parked in front of the Gardner building while the owner was attending the dance. It was located later on the Northeast Brainerd hill.

The police believe that there is an organized band of young men in the city that is making a practice of "borrowing" automobiles for joy rides and then abandon the cars where they will be easily found.

Automobile owners are advised to lock their cars securely and also to carry on their persons the engine numbers and license numbers, to facilitate the locating of stolen machines. Every effort will be made to break up this band and to bring the offenders to justice. The co-operation of the public to this end will be appreciated.

VAMPIRE CONTEST SET

Substantial Prizes Offered by New Park Theatre, Award on Wednesday Evening

The 50-50 partners Abe Potash and Mauruss Perlmutter have turned from selling cloaks and suits to filming beauties. They have made the vampiest kind of a vampire picture, and claim that it cost them one million dollars, less 2-3 for cash, to produce this picture. It is chock full of laughs and complicated situations. This is the second of a series of pictures to be made by this famous pair. It is claimed "In Hollywood with Potash and Perlmutter" is funnier than the first picture. They kid the movie, to the tune of a laugh that starts in the beginning and never ends, showing the latest styles in fascinating femininity with hundreds of dazzling sirens, bewitching beauties, daring damsels all combined in the greatest rib-tickling vampire picture ever made.

In a nut-shell it is Mauruss and Abe's opinion of how motion pictures should be made. This picture is showing at the New Park Theatre on Wednesday, Thursday, and Friday at regular prices, and since vampires funny and other-wise are playing a big part in this picture, Manager Irwin has evolved the idea of a vampire contest. Substantial prizes will be given to the funniest vamp and the vampiest vamp appearing on the stage at the New Park on Wednesday evening. All those wishing to enter the contest should get in touch with Mr. Irwin as soon as possible for further details.

Music Proves to be Best of Large Orchestras Heard in Brainerd Many Seasons

The United Commercial Travelers of Brainerd Council "Prosperity Party of 1925" given at Gardner auditorium Saturday night was a huge success. As Brainerd Council has a wide jurisdiction and the traveling men are almost continuously on the road with the exception of the week end, the dance received much publicity from the members and a record attendance was present from Staples, Ironton, Crosby, Aitkin, Deerwood and Little Falls. Staples alone sent a delegation of forty. Roads and weather were good, thus making automobile driving comfortable.

Hedstrom's U. C. T. orchestra of ten pieces carried an orchestration of piano, violin, banjo, saxophone, trumpet, trombone, clarinet, bassoon, traps and drums, with G. E. (Sweetie) Hedstrom directing. The music of this enlarged orchestra was pronounced the finest heard in the city in many years.

"HEART" ARMY TO SOLICIT CITY

Campaign Formally Launched at Chamber of Commerce in Dinner

FOR CIVIC GROUP WORKERS

Chairmen of Various Groups Have Announced Their Delegations

Brainerd's "Heart Fund" campaign for maintenance of the local Salvation Army during the next twelve months will be formally launched at the Chamber of Commerce in a dinner for all civic group representations on Tuesday evening at 6:15 p. m.

The chairmen of the various committees have announced that their groups will be present to represent their respective organization, and that they are prepared for a snappy, enthusiastic, put-it-over-the-first-day campaign.

Heart "Army" Will Attack City

Over 100 of Brainerd's leading business men and club women will attack Brainerd on Wednesday armed with "We Did Invest in Humanity" stickers, and subscription cards.

All of the 100 workers will be given their final campaign directions and assignments at the Tuesday evening dinner.

The Tuesday dinner will be opened by Dr. A. K. Cohen, Exalted Ruler of the Elks lodge, who is general chairman of the campaign.

The meeting will then be turned over to Dr. J. A. Thabes, who will serve as toastmaster for the occasion. The chief speech of the evening will be given by R. R. Gould, after which the "send-off" charge will be given to those present and assignments distributed to the group representatives.

Royal Neighbors

Word was received at campaign headquarters this morning from the Royal Neighbors of America, Mrs. A. E. Swanson, President, that their organization would be represented by a committee of eight at the Tuesday evening dinner. The Royal Neighbors group will be composed of the following, according to Mrs. Swanson:

POLICE CHASE LIQUOR RUNNERS

Men Pursued Along Oak Street by Chief And Two Deputy Sheriffs

BOTTLES TOSSED FROM CAR

Two Jugs Remained Unbroken And Were Included in Evidence Secured

Chief of Police Gaskill had a merry chase on Thursday evening to catch a gang of liquor runners. According to the story of the police, with Ted Nesheim and Henry Stein he followed a Dodge roadster along Oak street, catching the men about three miles out along the pavement. Ernest Rausch was driving the car, and with him were Edward Huseby and Lawrence Stevens. They came onto Oak street from South 13th, and it was here that the police took up the chase.

About at 19th street the bootleggers began to break up the bottles and jugs in the car. Jugs were scattered all along the road, and the car was saturated with the moonshine. Two jugs, a gallon jug and a half-gallon jug, were unbroken, and taken as evidence. The three men were arrested their car seized, and each man fined \$100 in municipal court Friday morning.

Immediately after their leaving municipal court they were arrested by the sheriff on county warrants, placed in county jail, and are being held for the May term of court.

AUTO STEALING GANG IN CITY

Police Say an Organized Campaign
Effective in City Past
Month

THIEVING INCIDENTS CITED

Practice of "Borrowing" Cars Incurs
a Severe
Penalty

According to local police officers there has been an automobile stealing campaign in Brainerd during the past month, which is gaining in proportions and which culminated in the taking of three cars over the last week end.

C. F. Christenson of Pine River, reported that his Ford coupe was taken between eight and ten o'clock on Sunday evening in front of one of the local theatres. He reported the matter to the police at once, but the car was not found until Monday morning, at the corner of South Fourth and Front streets, where it had been abandoned near the Nash-Finch wholesale grocery house. The owner, who had returned to Pine River, was notified, and came to Brainerd to claim his property.

A new Overland Coupe was also taken on Sunday evening, from the curb in front of the home of J. A. Joncas, 723 North Sixth street. The parties who took the car were unable to start it, after they had pushed it a block, and abandoned it. The police were in the act of towing it to a garage when the owner came to claim it. An Overland coupe was reported stolen from Crosby, and the police thought they had found this car when they picked up the Brainerd coupe. The motorometer on the latter was stolen before it was abandoned.

A Ford coupe, belonging to a party from Northeast Brainerd was taken on Saturday evening from where it was parked in front of the Gardner building while the owner was attending the dance. It was located later on the Northeast Brainerd hill.

The police believe that there is an organized band of young men in the city that is making a practice of "borrowing" automobiles for joy rides and then abandon the cars where they will be easily found.

Automobile owners are advised to lock their cars securely and also to carry on their persons the engine numbers and license numbers, to facilitate the locating of stolen machines. Every effort will be made to break up this band and to bring the offenders to justice. The co-operation of the public to this end will be appreciated.

VAMPIRE CONTEST SET

Substantial Prizes Offered by New
Park Theatre, Award on Wednesday Evening

The 50-50 partners Abe Potash and Mauruss Perlmutter have turned from selling cloaks and suits to filming beauties. They have made the vampiest kind of a vampire picture, and claim that it cost them one million dollars, less 2-3 for cash, to produce this picture. It is chock full of laughs and complicated situations. This is the second of a series of pictures to be made by this famous pair. It is claimed "In Hollywood with Potash and Perlmutter" is funnier than the first picture. They kid the movie, to the tune of a laugh that starts in the beginning and never ends, showing the latest styles in fascinating femininity with hundreds of dazzling sirens, bewitching beauties, daring damsels all combined in the greatest rib-tickling vampire picture ever made.

In a nut-shell it is Mauruss and Abe's opinion of how motion pictures should be made. This picture is showing at the New Park Theatre on Wednesday, Thursday, and Friday at regular prices, and since vampires funny and otherwise are playing a big part in this picture, Manager Irwin has evolved the idea of a vampire contest. Substantial prizes will be given to the funniest vamp and the vampiest vamp appearing on the stage at the New Park on Wednesday evening. All those wishing to enter the contest should get in touch with Mr. Irwin as soon as possible for further details.

Mrs. Mattie May Carli, wife of Christopher Carli, tender at the Cross Lake dam, passed away at a local hospital Saturday evening, February 21, death resulting from complications.

Mrs. Carli was born in Wisconsin, January 20, 1861. She has made her home at the Cross Lake dam for the past six years. She leaves to mourn her loss her husband and one son, C. J. Carli, of St. Paul.

Mrs. Carli's father, Linden Combs, was one of the first settlers around Brainerd, and will be remembered by only the very oldest residents of this section.

The remains were prepared for burial at the McNamara parlors and were taken to St. Paul Monday morning, where services and interment will be made Tuesday afternoon.

The United Commercial Travelers of Brainerd Council "Prosperity Party of 1925" given at Gardner auditorium Saturday night was a huge success. As Brainerd Council has a wide jurisdiction and the traveling men are almost continuously on the road with the exception of the week end, the dance received much publicity from the members and a record attendance was present from Staples, Ironton, Crosby, Aitkin, Deerwood and Little Falls. Staples alone sent a delegation of forty. Roads and weather were good, thus making automobile driving comfortable.

Hedstrom's U. C. T. orchestra of ten pieces carried an orchestration of piano, violin, banjo, saxophone, trumpet, trombone, clarinet, bassoon, traps and drums, with G. E. (Sweetie) Hedstrom directing. The music of this enlarged orchestra was pronounced the finest heard in the city in many years.

"HEART" ARMY TO SOLICIT CITY

Campaign Formally Launched at
Chamber of Commerce in
Dinner

FOR CIVIC GROUP WORKERS

Chairmen of Various Groups Have
Announced Their
Delegations

Brainerd's "Heart Fund" campaign for maintenance of the local Salvation Army during the next twelve months will be formally launched at the Chamber of Commerce in a dinner for all civic group representations on Tuesday evening at 6:15 p. m.

The chairmen of the various committees have announced that their groups will be present to represent their respective organization, and that they are prepared for a snappy, enthusiastic, put-it-over-the-first-day campaign.

Heart "Army" Will Attack City

Over 100 of Brainerd's leading business men and club women will attack Brainerd on Wednesday armed with "We Did Invest in Humanity" stickers, and subscription cards. All of the 100 workers will be given their final campaign directions and assignments at the Tuesday evening dinner.

The Tuesday dinner will be opened by Dr. A. K. Cohen, Exalted Ruler of the Elks lodge, who is general chairman of the campaign.

The meeting will then be turned over to Dr. J. A. Thabes, who will serve as toastmaster for the occasion. The chief speech of the evening will be given by R. R. Gould, after which the "send-off" charge will be given to those present and assignments distributed to the group representations.

Royal Neighbors

Word was received at campaign headquarters this morning from the Royal Neighbors of America, Mrs. A. E. Swanson, President, that their organization would be represented by a committee of eight at the Tuesday evening dinner. The Royal Neighbors group will be composed of the following, according to Mrs. Swanson:

Mrs. E. Erickson, Mrs. Frank Hitt, Mrs. M. E. Morrison, Mrs. L. E. Cameron, Mrs. Joe Britton, Mrs. Olive Peterson, Mrs. Harold Nelson and Mrs. A. E. Swanson.

SHIFTS IN TEAMS AS B. B. SEASON STARTS

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 23.—John McGraw was one of the very few major league managers who thought enough of his last year's team to stick to it for another campaign. There are other teams that haven't been changed, but most of these remain the same because their managers couldn't make the changes they wanted.

Jack Hendricks made several additions to the Cincinnati Reds from the minor leagues, but he failed to get a first baseman to succeed Jake Daubert and he probably will have to go through the season with Rube Bressler, a reformed pitcher, on first base. Bressler is a very good player, however, and he may fill the bill.

The Braves and the Robins made only one minor deal and the Phils failed to do anything to strengthen a notoriously weak team.

The Pirates and the Cubs were well shaken up by a big deal and both clubs may be benefited.

McGraw says that Pittsburgh will give him the hardest fight. He thinks that the Pirates will be improved as a result of the trade with the Chicago Cubs. The Pittsburgh officials were criticized by some very good authorities for parting with Grimm, Maranville and Cooper, but others thought it was a smart move. It must be remembered that some of the best ball players are not assets. There are numerous ways in which they can be a handicap to a team. Some players are disturbers and some are easy-going to the point of being soft.

Maranville and Grimm may be a big asset to the Cubs but they were almost a loss to the Pirates, and Bill McKechnie found the best way to get some one in their places.

Washington made the most lineup changes among the American League teams, and the team should be greatly improved for the race. Dutch Reuther and Stan Coveleskie are not young enough to be sure things, but neither are they too old to be desperate gamblers. Vean Gregg, who comes back from the minor leagues, is a gamble. The return of Walter Johnson to the team was the best piece of luck Bucky Harris had because Sir Walter is almost certain to be a winner for at least two more years. The addition of Mike McNally also ought to be of benefit to the team, as reserve strength was vitally needed. McNally also has the habit of landing on a pennant-winning team.

DEFENDS MOOSE FROM EXTINCTION

AGITATION TO RE-OPEN SEASON DEEMED MOST SHORT-SIGHTED ONE

Donald Hough in "The St. Paul Daily News"

The agitation to re-open the moose season in Minnesota is the most short-sighted, selfish and unreasonable movement that has been started in this state by that minority of sportsmen who are out for all they can get and to hell with the consequences and the other fellow.

Guy E. Hargren of Watertown makes an eloquent appeal for the return of the moose hunting. I won't repeat or discuss any part of his reasoning excepting the last paragraph of his article in "Pins, Feathers and Fur."

He says: "If we are driving our moose into Canada (and we surely are) why not give the sportsmen an opportunity before they are all gone?"

In other words, since the moose are being driven into Canada, the best thing to do is to make a good job of it and drive them not only there but to extinction just as fast as it is humanly possible to do so.

If this is the line of reasoning of so-called sportsmen, it is no wonder that many species of wild life have disappeared and that others are on the way.

Would he shoot the rest of the antelope and the bison because only a few are left and we might as well have as much fun as possible with the remnant? When your kid grows up and asks about the moose will it be fun to tell him "Well, there weren't many left, so we hit into them and cleaned them up for fear there would be some left for you."

In his biennial report Commissioner Gould has an article on the moose. It seems to favor opening the season again. Commissioner Gould, much as we like him personally, and good an executive as we believe him to be, has listened, not wisely but too well, to the counsel of the little selfish group, perhaps. Without going into his report, we pick out these two facts: First, that

the average kill before the season was closed was about 300 per year. Second let us quote the last paragraph in Mr. Gould's article:

"It is very doubtful if the moose herd of Minnesota has increased as a result of the protection given by a permanent closed season, over 20 per cent during the past two years."

That paragraph says a lot. It says, for one thing, that perhaps the closed season has permitted the moose to increase 20 per cent. But the object of the closed season was not to increase the moose herd. Increasing a moose herd is something else again. The best you can do with any moose herd is to try to retain it as it is, hoping that there will be a slight increase.

Let's get these facts clear. You can not "bring back" moose. If an elk herd is depleted, all you have to do is to capture a few animals that remain, put them down someplace where there is plenty of hay, and pretty soon you have a new elk herd. The same applies to deer. The same applies to many other animals. If worse comes to worse you can, with most species, bring them back even in captivity.

But please remember this: You can't bring moose back except by leaving them alone in their natural habitat and away from men. When they are gone, or almost gone, they are gone.

The season on moose is open in only one state in the United States. That state is Wyoming. There, a very limited number of special moose licenses are issued in certain years, and these licenses cost residents \$50 and non-residents \$100.

In view of all of these facts, can you "get" the reasoning of the few hopeless ones who want to re-open the season in Minnesota? It's easy to get. Selfishness. Write it a mile high. What does extermination mean so long as these little boys get their moose?

I don't care what arguments are used. Not one of them is right. Not one of them is based on anything but selfishness. In the final reckoning, there is one paramount fact: Nothing that provides for killing more moose will do anything but kill more moose. It is arithmetic. What if they are driven to Canada. Any person who wants to be honest in his deductions knows very well that if the woods on the Canadian side of the Superior wilderness are full of

PINE RIVER WINS, 17 TO 16, FROM RADIOLAS

FAST GAME PLAYED AT PINE RIVER, SCORE SEE-SAWING

WITH 20 SECONDS TO GO ON, HARBO MADE THE WINNING POINT FOR PINE RIVER

Pine River squeezed through a 17 to 16 win over the fast Radiolas at Pine River.

In the first quarter the scoring was close, first one side and then the other finding the basket. The locals had the lead here but the visitors came back managing to hold Pine River, 6 to 4, at the first quarter. In this period Jones and Harbo connected for field goals for Pine River, while Ericsson and Thorkildson scored for Brainerd.

The second period the Pine River five came back strong, Harbo caging two field goals, and the Radiolas counted only three points. The Radiolas' defense weakened somewhat during the second period. The half ended, 9 to 8, with the Radiolas on the long end.

The second half started out fast with Jones going in at center and Lowe at guard. The battle began to get warm, first one side would score and then the other. During this half Harbo scored nine points for his team, while Welsh caged two field goals and Ericsson one.

With the count 16 all and 20 seconds to go, a foul was called and Harbo made good the count and the game also.

Ericsson gave the best performance for Brainerd with four field goals and a free throw. Welsh had ill luck in shooting, but showed good floor work.

Harb was the outstanding star of the evening, scoring 15 out of 17 points.

A return game is planned for next Saturday here.

moose, they will always provide moose for the Minnesota side.

I hope that all real sportsmen who read this will let their representative know how they feel toward any such move. The other kind, irrespective of their positions in sportsmen's organizations, are invited to exterminate themselves rather than the moose.

GIBBONS-WILLS BOUT IS CERTAIN, SAYS TEX RICKARD

TO MEET IN 15-ROUND BOUT TO DECISION IN YANKEE STADIUM

TIME SET MAY BE EARLY IN JUNE, BENEFIT N. Y. MILK FUND

By HENRY L. FARRELL

New York, Feb. 23.—Tom Gibbons and Harry Wills, two leading challengers for the heavyweight championship, will meet in a 15-round bout to a decision in the Yankee stadium early in June as the feature of a card that is to be presented for the benefit of the New York milk fund. Tex Rickard will promote the show, and the match will be approved by the New York boxing commission at its meeting tomorrow.

Eddie Kane, manager of Gibbons, said that, as far as he was concerned, the match was on.

Paddy Mullins, who handles Wills, said that he was willing. "We have given up hope of getting a match with Dempsey," Mullins said.

Gibbons and Wills placed challenges for the heavyweight championship before the New York boxing commission and they were not acted upon. Before the meeting the chairman of the commission conferred with Kane and Mullins, and it is understood he suggested a meeting between the two challengers would be the fairest and most satisfactory way of deciding the next opponent for Jack Dempsey.

Recent developments indicate that the champion has decided to abandon the fighting game.

Promoters of the milk fund sent a representative, who is a close personal friend of the champion, to Los Angeles to ask him to appear for the milk fund benefit in accordance with a promise given last year. Word was received a few days ago that there was no chance to get his consent. It was decided then to go after the next best heavyweight card.

Tex Rickard, who has insisted all along that Dempsey would fight again, said that he had his doubts and added that he was sure that if

Dempsey did fight again in defense of his title that he would not put on the gloves until December at least.

If Gibbons and Wills meet Dempsey would have to defend his title or announce his definite retirement. Kane said the match was on, and that the St. Paul fighter was willing. Terms for the two boxers have not been made public. Kane said he had been guaranteed a satisfactory purse, and Mullins said that Wills "got enough."

Rickard will get 50 per cent of the profits for his labor in promoting the show, and the milk fund will get 50 per cent.

The announcement that Rickard has secured the boxing privileges at the Yankee stadium is expected in a few days, although it has been known for some time that he had put through a deal with Col. Jacob Ruppert, owner of the ball park.

SHIFTS IN TEAMS AS B. B. SEASON STARTS

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 23.—John McGraw was one of the very few major league managers who thought enough of his last year's team to stick to it for another campaign. There are other teams that haven't been changed, but most of these remain the same because their managers couldn't make the changes they wanted.

Jack Hendricks made several additions to the Cincinnati Reds from the minor leagues, but he failed to get a first baseman to succeed Jake Daubert and he probably will have to go through the season with Rube Bressler, a reformed pitcher, on first base. Bressler is a very good player, however, and he may fill the bill.

The Braves and the Robins made only one minor deal and the Phils failed to do anything to strengthen their notoriously weak team.

The Pirates and the Cubs were well shaken up by a big deal and both clubs may be benefited.

McGraw says that Pittsburgh will give him the hardest fight. He thinks that the Pirates will be improved as a result of the trade with the Chicago Cubs. The Pittsburgh officials were criticized by some very good authorities for parting with Grimm, Maranville and Cooper, but others thought it was a smart move. It must be remembered that some of the best ball players are not assets. There are numerous ways in which they can be a handicap to a team. Some players are disturbers and some are easy-going to the point of being soft.

Maranville and Grimm may be a big asset to the Cubs but they were almost a loss to the Pirates, and Bill McKechnie found the best way to get some one in their places.

Washington made the most lineup changes among the American League teams, and the team should be greatly improved for the race. Dutch Reuther and Stan Coveleskie are not young enough to be sure things, but neither are they too old to be desperate gamblers. Vean Gregg, who comes back from the minor leagues, is a gamble. The return of Walter Johnson to the team was the best piece of luck Bucky Harris had because Sir Walter is almost certain to be a winner for at least two more years. The addition of Mike McNally also ought to be of benefit to the team, as reserve strength was vitally needed. McNally also has the habit of landing on a pennant-winning team.

DEFENDS MOOSE FROM EXTINCTION

AGITATION TO RE-OPEN SEASON DEEMED MOST SHORT-SIGHTED ONE

Donald Hough in "The St. Paul Daily News"

The agitation to re-open the moose season in Minnesota is the most short-sighted, selfish and unreasonable movement that has been started in this state by that minority of sportsmen who are out for all they can get and to hell with the consequences and the other fellow.

Guy E. Halgren of Watertown makes an eloquent appeal for the return of the moose hunting. I won't repeat or discuss any part of his reasoning excepting the last paragraph of his article in "Fins, Feathers and Fur."

He says: "If we are driving our moose into Canada (and we surely are) why not give the sportsmen an opportunity before they are all gone?"

In other words, since the moose are being driven into Canada, the best thing to do is to make a good job of it and drive them not only there but to extinction just as fast as it is humanly possible to do so.

If this is the line of reasoning of so-called sportsmen, it is no wonder that many species of wild life have disappeared and that others are on the way.

Would he shoot the rest of the antelope and the bison because only a few are left and we might as well have as much fun as possible with the remnant? When your kid grows up and asks about the moose will it be fun to tell him "Well, there weren't many left, so we lit into them and cleaned them up for fear there would be some left for you."

In his biennial report Commissioner Gould has an article on the moose. It seems to favor opening the season again. Commissioner Gould, much as we like him personally, and good an executive as we believe him to be, has listened, not wisely but too well, to the counsel of the little selfish group, perhaps. Without going into his report, we pick out these two facts: First, that

the average kill before the season was closed was about 300 per year. Second let us quote the last paragraph in Mr. Gould's article:

"It is very doubtful if the moose herd of Minnesota has increased as a result of the protection given by a permanent closed season, over 20 per cent during the past two years."

That paragraph says a lot. It says, for one thing, that perhaps the closed season has permitted the moose to increase 20 per cent. But the object of the closed season was not to increase the moose herd. Increasing a moose herd is something else again. The best you can do with any moose herd is to try to retain it as it is, hoping that there will be a slight increase.

Let's get these facts clear. You can not "bring back" moose. If an elk herd is depleted, all you have to do is to capture a few animals that remain, put them down someplace where there is plenty of hay, and pretty soon you have a new elk herd. The same applies to deer. The same applies to many other animals. If worse comes to worse you can, with most species, bring them back even in captivity.

But please remember this: You can't bring moose back except by leaving them alone in their natural habitat and away from men. When they are gone, or almost gone, they are gone.

The season on moose is open in only one state in the United States. That state is Wyoming. There, a very limited number of special moose licenses are issued in certain years, and these licenses cost residents \$50 and non-residents \$100.

In view of all of these facts, can you "get" the reasoning of the few hopeless ones who want to re-open the season in Minnesota? It's easy to get. Selfishness. Write it a mile high. What does extermination mean so long as these little boys get their moose?

I don't care what arguments are used. Not one of them is right. Not one of them is based on anything but selfishness. In the final reckoning, there is one paramount fact: Nothing that provides for killing moose will do anything but kill moose. It is arithmetic. What if they are driven to Canada. Any person who wants to be honest in his deductions knows very well that if the woods on the Canadian side of the Superior wilderness are full of

PINE RIVER WINS, 17 TO 16, FROM RADIOLAS

FAST GAME PLAYED AT PINE RIVER. SCORE SEE-SAWING

WITH 20 SECONDS TO GO ON, HARBO MADE THE WINNING POINT FOR PINE RIVER

Pine River squeezed through a 17 to 16 win over the fast Radiolas at Pine River.

In the first quarter the scoring was close, first one side and then the other finding the basket. The locals had the lead here but the visitors came back managing to hold Pine River, 6 to 4, at the first quarter. In this period Jones and Harbo connected for field goals for Pine River, while Ericsson and Thorkildson scored for Brainerd.

The second period the Pine River five came back strong, Harbo caging two field goals, and the Radiolas counted only three points. The Radiolas' defense weakened somewhat during the second period. The half ended, 9 to 8, with the Radiolas on the long end.

The second half started out fast with Jones going in at center and Lowe at guard. The battle began to get warm, first one side would score and then the other. During this half Harbo scored nine points for his team, while Welsh caged two field goals and Ericsson one.

With the count 16 all and 20 seconds to go, a foul was called and Harbo made good the count and the game also.

Ericsson gave the best performance for Brainerd with four field goals and a free throw. Welsh had all luck in shooting, but showed good door work.

Harb was the outstanding star of the evening, scoring 15 out of 17 points.

A return game is planned for next Saturday here.

GIBBONS-WILLS BOUT IS CERTAIN, SAYS TEX RICKARD

TO MEET IN 15-ROUND BOUT TO DECISION IN YANKEE STADIUM

TIME SET MAY BE EARLY IN JUNE, BENEFIT N. Y. MILK FUND
